the microscope

1979. Vol. 27 Indexes

Editor: Walter C. McCrone

Published by
Microscope Publications Ltd.,
Chicago and London

Author Index

VOLUME 27

AKARNULIS, A.J., see Boyes, E.D., 9

BOYES, E.D., *et al:* Alloy Lattice Images and their Interpretation, 9

DODD, J.G., *et al:* A simple Interferometric Attachment for the Light Microscope, 31

DODD, J.J., see Dodd, J.G., 31

GAI, P.L., see Boyes, E.D., 9

GUMPERTS, W.E., High Resolution Photomacrography closing the gap between the Macro and Micro Range, 107

JACKS, T.J., see Yatsu, L.Y., 61, 107

KOHLBECK, J.A., Polarized Light Studies of Nitrocellulose, 67

LIVA, M., *et al:* Cargille PCB-Free Refractive Index Liquids, 87

LOVE, W.H., An Image Enhancement Device for Incident Light Microscopy, 25

McCRONE, W.C., *et al:* Dispersion Staining in the IR and UV, 75
Inter/Micro-79, 117

MEILEY, S.L., Optical, SEM and TEM Study of Transformed Steel Structures, 41

ORZECHOWSKI, A., An Optical Microscopy Method to Display pigment Agglomerates in Polymer Particles, 5
Photomicrography of Submicrometer Size Birefringent Contaminants (or Additives) in Carbon Black Dispersions in Polymer Particles, 133

PATRICK, J.W., Some Aspects of the Microstructure of Metallurgical Coke, 139

RICHARDS, O.W., A Small Spencer Folding Pocket Microscope, 1

SACHER, W., see Liva, M., 87

SKIRIUS, S.A., see McCrone, W.C., 75

YATSU, L.Y., *et al:* Visualization of Saturated Lipid Bodies in Organ Pipe Cactus by a Novel Cytochemical Technique, 61
Fixation of Cotton (Gossypium Hirsutuml) Hair Cells (Fibers), 113

Subject Index

VOLUME 27

Alloy Lattice Images and their Interpretation, E.D. Boyes, P.L. Gai and A.J. Akarnulis, 9

Cargille PCB-Free Refractive Index Liquids, M. Liva and W. Sacher, 87

Dispersion Staining in the IR and UV, W.C. McCrone and Stephen A. Skirius, 75

Fixation of Cotton (Gossypium Hirsutuml.) Hair Cells (Fibers), L.Y. Yatsu and T.J. Jacks, 113

High Resolution Photomacrography closing the gap between the Macro and Micro Range, W.E. Gumperts, 107

Image Enhancement Device for Incident Light Microscopy, W.H. Love, 25

Inter/Micro-79, W.C. McCrone, 117

Microstructure of Metallurgical Coke (Some Aspects of), J.W. Patrick, 139

Optical Microscopy Method to Display Pigment Agglomerates in Polymer Particles, A. Orzechowski, 5

Optical, SEM and TEM Study of Transformed Steel Structures, S.L. Meiley, 41

Photomicrography of Submicrometer Size Birefringent Contaminants (or Additives) in Carbon Black Dispersions in Polymer Particles, A. Orzechowski, 133

Polarised Light Studies of Nitrocellulose, J.A. Kohlbeck, 67

Simple Interferometric Attachment for the Light Microscope, J.G. Dodd and J.J. Dodd, 31

Spencer Folding Pocket Microscope, O.W. Richards, 1

Visualization of Saturated Lipid Bodies in Organ Pipe Cactus by a Novel Cytochemical Technique, L.Y. Yatsu and T.J. Jacks, 61

THE MICROSCOPE

Inter/Micro Index

VOLUME 27

ARCHAEOLOGICAL INVESTIGATION. X-Ray Diffraction Applications in Archaeological Investigations, Mavis Bimson 165
ART AND ARCHAEOLOGY. Microscopy in the Study of Art and Archaeology. Dr. Walter C. McCrone 167
ASBESTOS. A Study of Uncoated and Coated Asbestos Fibres in Human Lung Tissue with the Light Microscope. A. Morgan 159
Practical Application of the Magnetic Alignment of Asbestos Fibres. Dr. R. W. Gale. 159
Non-Commercial Asbestos. Jean Prentice and Gary Nichols 160
AUTOMATIC IMAGE ANALYSIS. TV or not TV: A Short Review of Image Scanning Methods for Quantitative Microscopy. Adrian C. Terrell. 164
Computer Recognition of Colour in the Light Microscope. Dr. Hans Au 164
COLOUR. Computer Recognition of Colour in the Light Microscope. Dr. Hans Aus 164
DRUG. Drug Particulates in Ointment and on Skin Using Microscopical Techniques. Dr. Norman A. Orr and E. A. Hill. 157
Microscopical Identification of Illicit Drugs. Skip Palenik 157
DUSTS. By their Dusts shall ye Know Them. Skip Palenik 163
ELECTRONICS. Applications of Microscopes in the Electronics and Semiconductor Industries of the U.S.A., Western Europe and Japan. Walter Guggi 168
ELLIPSOMETRY Applications of Ellipsometry in the Field of Reflectance Microscopy. Dr. E.F.I. Roberts 160
FIBRES. The Interference Microscope in Fibre Identification. R. G. Scott 164
FOOD INDUSTRY. Applications of Optical Microscopy in the Food Industry. L. Hay 158
FORENSIC SCIENCE. Using the Microscope to Examine Particulate Traces in Forensic Science. Miss P. Hamer 163
X-Ray Diffraction in Forensic Science. Dr. David Rendle 163
FOSSIL OSTRACODS. The Application of Scanning Electron Microscopy to Fossil Ostracods. Dr. R. H. Bate and Lesley M. Sheppard 166
ION THINNING. The Value of Recent Advances in Ion Thinning Techniques. Dr. J. Franks 167
IMAGE SCANNING. TV or not TV: A Short Review of Image Scanning Methods for Quantitative Microscopy. Adrian C. Terrell 164
INTERFERENCE MICROSCOPE. The Interference Microscope in Fibre Identification. R.G. Scott 164
LASER RAMAN MICROPROBE. Latest Development and Applications of the Laser Raman Microprobe. Dr. J. Barbillat. 162
LUNG TISSUE. A Study of Uncoated and Coated Asbestos Fibres in Human Lung Tissue with the Light Microscope. A. Morgan.. 159
MAGNETIC ALIGNMENT. Practical Application of the Magnetic Alignment of Asbestos Fibres. Dr. R. W. gale 159
MAGNETIC ALIGNMENT ASBESTOS. Practical Application of the Magnetic Alignment of Asbestos Fibres. Dr. R. W. Gale. 159
METALLURGICAL COKE. Some Aspects of the Microstructure of Metallurgical Coke. Dr. J. W. Patrick and A. E. Stacey. 161
MICROPROBE. Microprobe and Optical Correlations in the Compositions of Ore Mineral Solid Solutions. Professor Hugh Eales. 161
MICROSCOPES. Famous Chemists' Microscopes. Dr. Robert Nuttall 157
A Microscope Unit for the Complete Characterisation of Gemstones. Dr.

J. B. Nelson 158
Reduction of Glare and Improvement of Contrast in Microscopes of the Future. George White 166
MICROSCOPE. Applications of Optical Microscopy in the Food Industry. L. Hay 158
Application of Microscopy to the Study of Polymorphism. Dr. Walter C. McCrone 158
Application of Microscopy to South African Uranium Ore Deposits. Peter Simpson 160
MINERALOGY. Magnetic Characteristics of Mineral Particles. Dr. V. Timbrell. . 159
Microprobe and Optical Correlations in the Compositions of Ore Mineral Solid Solutions. Professor Hugh Eales. 161
Mineralogy of Metal-Bearing Kerogenous Fine-Grained Marine Strata in the Western United States. Dr. George A. Desborough and Forrest G. Poole. 161
Mineralogical Factors in the Design and Assessment of Processes for the Recovering Ore Minerals. Dr. M. P. Jones 162
MOLE. Latest Development and Applications of the Laser Raman Microprobe. Dr. J. Barbillat. 162
NERVOUS SYSTEM. Microscopy of the Human Nervous System Solved and Unsolved Problems. Dr. M. V. Salmon 168
NUCLEAR MICROPROBE ANALYSIS. Some Aspects of Nuclear Microprobe Analysis. J. W. McMillan 166
OINTMENT. Drug Particulates in Ointment and on Skin using Microscopical Techniques. Dr. Norman A. Orr and E. A. Hill 157
ORE MICROSCOPY. Application of Microscopy to South African Uranium Ore Deposits. Peter Simpson 160
Microprobe and Optical Correlations in the Compositions of Ore Mineral Solid Solutions. Professor Hugh Eales. 161
Mineralogical Factors in the Design and Assessment of Processes for Recovering Ore Minerals. Dr. M. P. Jones. 162
ORE MINERALS. Application of Microscopy to South African Uranium Ore Deposits. Peter Simpson 160
Microprobe and Optical Correlations in the Compositions of Ore Mineral Solid Solutions. Professor Hugh Eales. 161
Mineralogical Factors in the Design and Assessment of Processes for Receovering Ore Minerals. Dr. M. P. Jones. 162
PARTICLES. Magnetic Characteristics of Mineral Particles. Dr. V. Timbrell . . . 159
POLLENS. Microscopical Examination of Pollens from the Turin Shroud. Dr. Max Frei. 167
POLYMORPHISM. Application of Microscopy to the Study of Polymorphism. Dr. Walter C. McCrone 158
REFLECTANCE MICROSCOPY. Applications of Ellipsometry in the Field of Relectance Microscopy. Dr. E. F. I. Roberts. 160
SCANNING ELECTRON MICROSCOPY. The Application of Scanning Electron Microscopy to Fossil Ostracods. Dr. R. H. Bate and Lesley M. Sheppard 166
SEMI-CONDUCTORS. Applications of Microscopes in the Electronics and Semiconductor Industries of the U.S.A., Western Europe and Japan. Walter Guggi . . 168
SKIN. Drug Particulates in Ointment and on Skin Using Microscopical Techniques. Dr. Norman A. Orr and E. A. Hill. 151
STEEL. Transmission Electron Microscopy and Photo-Emission Electron Microscopy of Steels. Dr. David V. Edmonds 162
TURIN SHROUD. Microscopical Examination of Pollens from the Turin Shroud. Dr. Max Frei. 167
URANIUM ORE. Application of Microscopy to South African Uranium Ore Deposits. Peter Simpson 160
X-RAY DIFFRACTION. X-Ray Diffraction Applications in Archaeological Investigations. Mavis Bimson 163
